

SEIZE NEW MOMENTS WITH YOUR CONSUMERS.

ATM AS A SERVICE POWERED BY DIEBOLD NIXDORF ALLCONNECTSM SERVICES

Managing a self-service delivery channel can be an underestimated responsibility for many Financial Institutions (FIs). FIs are faced with balancing the need for efficiency and optimization against the non-negotiable (rising) consumer demand for a personalized and always on self-service experience. FIs know that to compete effectively and grow revenue, they must never miss a moment with each of their consumers. Yet, the reality is that many FIs are faced with scarce resources, a need for rapid innovation and lack of in-house expertise to fulfill against this in-demand consumer delivery channel. ATM as a Service, powered by Diebold Nixdorf AllConnect Services, shifts the management of your self-service delivery channel to us, giving FIs the opportunity to seize each moment with every consumer.
